

## Client Testimonials

"I used to be unsure about what to wear. After a personal style consultation with Juliana, I feel confident and beautiful. She not only gave me some very useful tips, but also thought me how to dress according to my style and personal coloring. Friendly, yet professional, she patiently answered all my questions. Now I constantly receive compliments from my family, my friends and even strangers. If you are looking for a personal stylist who explains rather than just give tips, Juliana is the right person for you."
